

HECTOR VIRREY

Full-Stack Developer | Software Engineer

Chicago, Illinois • Open to Remote | 331-312-2415 | hv.fin25@gmail.com | [GitHub](#) | HectorVirrey.com

SUMMARY

Full-stack developer and Computer Science student building production web applications with Next.js, React, TypeScript, PostgreSQL, and Supabase. Experience developing authentication, database-backed workflows, APIs, responsive interfaces, and deployed applications end to end. Currently pursuing a B.S. in Computer Science while strengthening software engineering fundamentals and building real-world products.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, SQL

Frontend: React, Next.js, Tailwind CSS, Responsive UI

Backend & Data: Node.js, PostgreSQL, Supabase, REST APIs, Authentication, Row Level Security

Tools: Git, GitHub, Vercel, VS Code

PROJECTS

PetCare Hub — Full-Stack Pet Services Marketplace | *Next.js • React • TypeScript • Supabase • PostgreSQL* | [Live](#) · [GitHub](#)

- Built and deployed a two-sided marketplace connecting pet owners with service providers, including authentication, pet management, provider profiles, availability, bookings, and reviews.
- Implemented server-validated booking workflows and database authorization using Supabase Auth and PostgreSQL Row Level Security.
- Designed relational data models and protected owner/provider workflows while maintaining a responsive production UI.

GigMate — Gig Work Earnings & Profitability Tracker | *Next.js • TypeScript • Supabase • PostgreSQL* | [Live](#)

- Built a full-stack dashboard for tracking gig sessions, mileage, expenses, estimated taxes, cash profit, take-home pay, and effective hourly rate.
- Developed a centralized financial calculation engine with automated tests covering core earnings and expense calculations.
- Implemented authentication, persistent user settings, database security policies, analytics, filtering, and data visualization.

NeighborLink — Local Marketplace Platform | *Next.js • TypeScript • Supabase • PostgreSQL*

- Built a local marketplace with listings, image uploads, search and filtering, favorites, user authentication, and direct messaging.
- Implemented database-backed messaging with unread states and user-scoped marketplace data.
- Developed responsive listing creation, browsing, detail, and account workflows backed by Supabase.

EXPERIENCE

CTR Services Inc. — Trailer & Reefer Technician | *July 2024 – Present*

- Diagnose and repair electrical, mechanical, refrigeration, braking, and trailer systems in a production service environment.
- Troubleshoot faults systematically using diagnostic information, schematics, testing equipment, and hands-on inspection.
- Manage repairs independently while documenting work, communicating findings, and prioritizing safe, reliable equipment operation.

EDUCATION

Western Governors University | B.S. Computer Science — In Progress
